MEMORANDUM FOR: Director, Office of Information
Technology, DA

ATTN: Chief, Systems Administration Branch

VIA: ADP Control Officer, ODE/S&T

FROM: ⬜ Senior Analyst,   25X1
SEG/ODE/S&T

SUBJECT: Request for Additional Storage on VM

1.   At the request of the NIO/FDIA, I have developed
data handling and analytic techniques ⬜
⬜
⬜ We expect the effort to
be of value to several NIO's, four or five offices of the
DI, several of the DS&T, the DO, and the Office of Security
in your Directorate. Outside the Agency, DIA and the FBI
have shown interest. Files of the data are being supported
on a developmental basis by the DI, but they do not meet my
needs with respect to timeliness and content. The file I am
prepared to set up and maintain on VM will be updated daily
via inputs from SAFE, will be available to all Agency users,
⬜ through Delta Data terminals
and conventional printing facilities. Non-Agency users will
have the equivalent on IBM-class microcomputers. ⬜

2.   To implement this program, I will require about 40
megabytes of VM storage to satisfy both my on-going needs
and those of this new program. ⬜

3.   Should you have any questions or want details about
the ⬜ effort, please call. My
secure phone number is ⬜
